

The Fifth and Sixth Grade Science Classes of Hibberd Junior High School were much interested in their recent flower show. The idea originated last Spring when classes were buying penny packets of seed and the suggestion was made that the children have a display of flowers which they had grown and taken an interest in during the summer months. Each student arranged his own bouquet.

The project developed greater interest in flowers and the children learned about the arrangement of flowers and the need of suitable containers.

Roy Blomeyer, Rudolph Fienning,

and Mariyin Jenkins, shown in the accompanying photo, were selected as having the most attractive bouquets in the display.

The following children brought bouquets: Roy Blomeyer, Rudolph Fienning, Marilyn Jenkins, George Turner, Christopher Blainas, Frances Kenworthy, Margarete Casper, Betty Brown, Phyllis Jones, Maggie Hughes, Mary Williams, Bobb Brown, Mary Lewis, Mary Jean Arkenberg, Billy McFarland, Bertram Russell, Donna Jo Fisher, Laurie Burkhardt, Barbara Esselmacher, Patricia Hendrix, Sally Lundy, Howard Weddle, Jack Garner, Jimmy Coons, and Jimmy Seizinger.
